INTRODUCTION

Antaira Technologies' LNP-0702C-SFP-24 series industrial gigabit unmanaged Ethernet switch features five 10/100Tx ports, four of which support IEEE 802.3at high power PoE (30W/Port), and two dual rate 100/1000Fx SFP slots. This product series provides high EFT and ESD protection to protect against unregulated voltage. It also provides two operational temperature models for either standard temperature: -10 to 70C or extended temperature: - 40 to 75C. The LNP-0702C-SFP series also supports a low voltage power input range of 12~36VDC. It is an ideal solution for harsh environments and industrial applications.
