

# L2 – 2M | 5M

## Smart LED Light Strip

### Features

- 16 Million Colors
- Support Voice Control
- Support Remote Control
- IP65 Waterproof
- Create schedules

### Specifications

#### Smart LED Light Strip

|                     |               |
|---------------------|---------------|
| Input Voltage       | DC 12V        |
| Material            | FPCB          |
| Color               | RGB           |
| LED Quantity        | 30 LEDs/m     |
| Luminous Flux       | ≥300 lumens/m |
| Beam Angle          | 120°          |
| Working Humidity    | ≤95%          |
| Working Environment | -15°C~50°C    |
| IP Rating           | IP65          |

#### WIFI Controller

|                           |                        |
|---------------------------|------------------------|
| Input                     | DC 5-24V               |
| Remote Controller Battery | 3V (CR2025)            |
| Power                     | 144W                   |
| WIFI                      | IEEE 802.11 b/g/n 2.4G |
| Remote Controller         | Infrared 24 Keys       |
| Supported Systems         | Android & iOS          |

#### Power Adapter

|              |                                                                    |
|--------------|--------------------------------------------------------------------|
| Input        | 100-240V AC 50/60Hz 0.6A Max                                       |
| Protection   | Overvoltage protection   Overload protection   Overheat protection |
| Output       | DC 12V (24W)                                                       |
| Cable Length | 1.5m                                                               |
